

IS YOUR PROJECT FUTURE-READY WITH SMART MATERIALS?

For those building with vision:
innovative materials, optimized costs,
and faster execution.

Who Are We?

With 12+ years of expertise, **Repairtech India**, delivers smart, sustainable building materials, from **No River Sand Plasters** and **UGGBFS** to cost-optimizing **concrete SCMs**, **fiber cement boards**, **eco plasters**, **FRP rebars**, and **mineral admixtures** — ensuring durability, efficiency, and long-term value.

Our expertise

- Backed by **construction material engineers** with **28+ years** of smart building material expertise
- **Smart specification** knowledge for best practices
- 360 degree **tech-driven demand generation** know-how
- High-performance supplementary cementaceous materials (**SCM**) for high-grade concrete

360 Degree of Smart approach to building materials,

Repairtech India Pvt. Ltd.
